• Peter Ryan reported on a concern regarding international travel and how to ensure the university knows where personnel/students are at all times during travel - and in the event of emergencies, etc. can implement the risk management and emergency extraction plan.
• Rick Nader, Associate VP and Executive Director of International Institute was present to assist with more information. Peter Ryan stated that a better mechanism may be needed to capture student information when abroad. Dr. Nader stated there is currently not a systematic way to capture all international travel at all levels for all types of purposes (MSU related). An international travel form is required for most of those traveling, but the International office has not been charged with risk management. Although some of the groups traveling
may not be MSU sponsored, Dr. Ryan stated that the university would still be held (or viewed as) responsible for their safety.

- There have been campus discussions of what the risks are in the different level of students traveling. Drs. Ryan and Nader do feel there may be a need for a partnership subcommittee for guidelines or policy for international travel and/or to educate travelers. He asked to be contacted if any are interested in serving on the subcommittee.
- Tabor Mullen recommended that Joy Graves in the Office of Compliance should also be included to serve on the subcommittee for information and/or changes in the Clery Act in regards to student travel.

3. **Transfer students and Upper level courses.**
   Peter Ryan stated that the university has one of the largest transfer classes for fall 2017. He reminded all to pay attention if additional seats are needed in upper level classes. Amy Adkerson noted that after today’s transfer orientation session would be a good opportunity to look at the needs for the upper level courses for the next transfer orientation session.
